

Tejas Patil

Aspiring Software Engineer | Full-Stack & Mobile Developer | AI/ML Engineer

tejaspatil1643@gmail.com | +91 9960469732 | Pune, India | linkedin.com/in/tejasin | github.com/Tejas164321

Summary

Full-stack and mobile (React Native) developer skilled in MERN, Next.js, JavaScript/TypeScript, and Python. Experienced in building scalable applications, AI-powered automation systems, and optimized REST APIs. Currently developing production-grade systems including a phone-camera barcode scanning workflow enabling real-time billing and automated inventory updates without external hardware.

Technical Skills

Languages: Python, JavaScript, TypeScript, HTML, CSS

Frameworks: React.js, Next.js, React Native, Node.js, Express.js, MERN Stack

AI/ML: NLP, LLMs, Generative AI, RAG, Hugging Face, LangChain, Agentic AI

Databases: MongoDB, MySQL, SQL, Firebase, VectorDB

Tools: Git, Docker, Postman, GitHub Actions, n8n

Experience

Software Developer Intern | Delxn Technologies

Sep 2025 – Feb 2026

- Contributed to development of SkyStruct V2 Lite construction workflow platform.
- Built and integrated core modules supporting large-scale project operations.
- Collaborated with senior engineers to implement scalable features and system fixes.

React.js Developer Intern | Celebal Technologies

May 2025 – Jul 2025

- Developed Quora/Spotify-style interfaces using reusable React components.
- Integrated REST APIs and optimized performance via code splitting.
- Delivered responsive UI across multiple devices during Agile sprints.

MERN Stack Intern | EY GDS & Edunet Foundation

Feb 2025 – Mar 2025

- Engineered FinPal, an AI-powered UPI transaction analysis system.
- Implemented secure authentication using JWT and RBAC access control.
- Optimized backend queries reducing API response time by ~30%.

Projects

Dairy Nine – Multi-Dashboard Supply Chain Platform

2025 – Present

Next.js, React Native, Node.js, MongoDB, Firebase

- Developing a real-world platform automating the dairy supply chain ecosystem.
- Designed operational dashboards for 5+ roles including Producer, Vendor, Retailer.
- Built mobile-camera barcode scanning enabling billing and live stock updates without external hardware.

AI Recruiter – Intelligent Talent Engine

09/2024 – 03/2025

Next.js, Firebase, Gemini NLP

- Built AI-driven resume analysis using Gemini NLP with semantic candidate scoring.
- Implemented secure Firestore rules with structured role-based access.
- Reduced manual screening effort by ~70% through automation workflows.

FinPal – AI UPI Expense Analyzer

02/2025 – 06/2025

MERN, AI, PDF/CSV Parsing

- Built AI-powered financial dashboard analyzing 1000+ UPI transactions.
- Developed parser for PhonePe, GPay, and bank statements (PDF/CSV).
- Implemented ML-assisted engine for automated expense categorization.

MyDinner – Mess Operations Platform

01/2025 – 08/2025

Next.js, Kotlin, Firebase

- Developed portals managing meal billing, attendance, and student operations.
- Implemented RBAC system and automated lifecycle management workflows.
- Built Kotlin Android app for real-time attendance and billing access.

Education

Savitribai Phule Pune University, Pune, India

Bachelor of Engineering (BE) | CGPA: 8.9/10

08/2022 – Present

Achievements & Certifications

- Python for Data Science – IBM (Coursera), 2025
- AI Azure Internship – Microsoft/AICTE/Edunet, 2025
- Generative AI for Data Science – Microsoft, 2025
- Product & Innovation Challenge – Round 2, 2024
